INTRODUCTION

The objective of this program is to build professional confidence in your ability to thrive in the current global context. The course will provide participants with insights and practical tips and frameworks to help leadership embrace this new VUCA context and learn how to thrive within it. Participants' successful completion of this program will be awarded with a certificate of completion.

By the successful completion of this course the learner will:

- Describe and discuss the meaning of the acronym VUCA and its implications for organisational leadership in the 21st century.
- Effectively apply VUCA Prime as a positive countermeasure to the disorienting effect of VUCA.
- Understand and apply leadership resilience strategies in the face of VUCA.
- Discover and discuss processes and practices of innovation as a mechanism to address VUCA.
- Identify and integrate best practices of change management to support organisational strength within VUCA.
- Understand the importance of systems coaching for organisational health within VUCA and develop a systems coaching program
